Subject: Environmental Protection Agency

Message: Hello Mr. Obama, My name is (b) (6). I am trying to get in touch with you about the property, in which I own and reside in, that is on an EPA Superfund site. Me and my wife had our two sons (b) (6), who is 6 years old, and (b) (6), who is 3 years old, tested for lead because of this situation. Our oldest, (b) (6), has high amounts of lead in his blood, and (b) (6), has amounts of lead, but doesn't exceed the boundaries set by the CDC. I have several concerns with this and with other issues about the EPA and their process. Could you, or someone in your cabinet, please contact me regarding this and other questions that I have. I am trying to look after the safety of my family. My phone number is (b) (6) and my email address is (b) (6). Thank you for your time and consideration. (b) (6)
